PROFESSIONAL SUMMARY

Junior Software Developer and Computer Science and Systems Engineering student (7th semester) at Universidad de San Carlos de Guatemala (USAC), with hands-on experience building full stack web applications, REST APIs and relational databases. Works with JavaScript, TypeScript, Node.js, Express, React, Angular, Python, Java, Go, C++, Microsoft SQL Server, PostgreSQL, Docker and AWS. Bilingual (native Spanish, advanced English B2-C1) with a track record leading operations for 150+ collaborators, mentoring teams and working directly with clients in multicultural environments.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, Java, Go (Golang), C++, PHP, SQL, x86 Assembly, HTML5, CSS3
- **Frameworks and Libraries:** React, Angular, Vite, Node.js, Express.js, Tailwind CSS, REST API development
- **Databases:** Microsoft SQL Server, PostgreSQL, Oracle SQL, MongoDB, relational and NoSQL database design, triggers, views, database migration (Oracle to SQL Server)
- **Cloud and DevOps:** Docker, Docker Compose, Kubernetes, AWS EC2, AWS S3, Git, GitHub, GitHub Actions, CI/CD, application deployment, Linux
- **Computer Science:** Data structures and algorithms, compilers and interpreters, file systems, operating systems, computer architecture
- **Networking:** Network protocols, VLANs, routing, trunking, network topologies
- **Tools:** DBeaver, Oracle SQL Developer, CMake, Makefile, Microsoft Office
- **Soft Skills:** Adaptability, Problem Solving, Teamwork, Time Management, Resilience, Strategic Leadership, Consultative Sales, Mentoring, Intercultural Communication, Conflict Resolution, Workshop Facilitation

PROFESSIONAL EXPERIENCE

Software Developer and Sales Agent

TechnoMaya | Guatemala | Mar 2026 - Present

- Develop custom software, web applications and mobile applications for small and medium-sized businesses in Guatemala.
- Gather client requirements and translate business needs into technical solutions such as business websites, inventory, appointment and attendance management systems.
- Take part in consultative sales: present tailored technology proposals and quotes and support clients in choosing the right solution.

Mentor

The Church of Jesus Christ of Latter-day Saints | Guatemala | May 2026 - Present

- Mentor and train new missionaries in practical teaching skills using the Preach My Gospel framework, in coordination with mission leadership.
- Track key performance indicators (KPIs) and lead feedback sessions focused on each person's professional and personal growth.
- Earned three verified digital badges from Missionary Training (MTC): Instructional Excellence, Learner-Focused Development, and Vision and Alignment.

Executive Assistant, Team Lead and Volunteer Mentor

The Church of Jesus Christ of Latter-day Saints | Guatemala | Jan 2024 - Feb 2026

- Led operations and logistics for an organization of more than 150 collaborators, reporting directly to senior executive leadership.
- Facilitated weekly professional development workshops and provided personalized coaching that improved team performance.
- Managed conflict resolution, intercultural communication and goal tracking, ensuring the integration of diverse teams in high-demand environments.

Mathematics and Physics Teacher
El Castaño Bilingual School | Guatemala | Jan 2023 - Dec 2023

- Taught mathematics and physics from 6th grade through high school, designing curricula focused on logical reasoning and complex problem solving.
- Applied active learning methodologies, adapting teaching styles to different learning levels.

PROJECTS

Super La Estrella - Sales, Payments and Inventory System
React, Vite, Node.js, Express, Microsoft SQL Server 2022, Docker

- Built a full stack application for a supermarket: relational database with 19 tables, triggers and views in Microsoft SQL Server 2022, migrated from Oracle SQL.
- Developed a REST API in Node.js and Express as the single access layer to the data; triggers validate stock and update sale status.
- Created a React and Vite dashboard with reports and charts; containerized the full stack with Docker Compose and published a live demo.

Centro JAS Naranjo - Registration and Check-in Platform
React, Express, PostgreSQL, Tailwind CSS

- Built an attendee registration platform for a community center with downloadable ID cards with QR codes and hybrid check-in (camera QR scan or manual search).

ExtreamFS - File System on AWS
C++, CMake, Makefile, AWS EC2, AWS S3

- Implemented a file system in C++ and deployed it on AWS EC2 instances with Amazon S3 as the storage backend (two project phases).

Golampi Language Interpreter
PHP

- Built an interpreter for the Golampi programming language, including lexical, syntax and semantic analysis.

Data Structures Visualizer
JavaScript, HTML, CSS

- Implemented an AVL tree, N-ary tree, sparse matrix and circular linked list with an interactive web visualization and a live demo.

Personal Portfolio - akamariano.github.io
HTML, CSS, JavaScript, GitHub Actions, GitHub API

- Bilingual (English/Spanish) portfolio with a CI/CD pipeline in GitHub Actions that pulls project data from the GitHub API and deploys to GitHub Pages.

EDUCATION

Bachelor's Degree in Computer Science and Systems Engineering (Ingeniería en Ciencias y Sistemas)
Universidad de San Carlos de Guatemala (USAC) | In progress - 7th semester

- Academic Excellence Award, Universidad de San Carlos de Guatemala (2 times).

High School Diploma in Computer Science (Bachillerato en Computación)
Colegio Jesús Rey de Gloria | 2020

CERTIFICATIONS

- Certificate of Language Ability - English, Level B2-C1 (TrueNorth 8.0) - Rosetta Stone - Feb 2025
- Microsoft Office Specialist: PowerPoint 2019 Associate - Microsoft - Aug 2020
- Microsoft Office Specialist: Word 2016 - Microsoft - Sep 2019
- Missionary Training (MTC) digital badges: Instructional Excellence (Oct 2026), Learner-Focused Development (Sep 2026), Vision and Alignment (Jun 2026)

LANGUAGES

Spanish - Native | English - Advanced (B2-C1) | Miskitu - Intermediate
