Personal Profile

Technology and applied sciences enthusiast with a solid academic foundation and fluent English proficiency. I have developed a strong work ethic and the ability to collaborate successfully in diverse and multicultural environments. My goal is to contribute my technical knowledge to a development team where I can learn from experienced mentors, adapt to new challenges, and drive collective success through constant effort and the exchange of ideas

Work Experience

EXECUTIVE ASSISTANT, TEAM LEAD & VOLUNTEER MENTOR

- ***The Church of Jesus Christ of Latter-day Saints | Jan 2024 – Feb 2026***

Led operations and logistics for an organization of over 150 collaborators, reporting directly to senior executive leadership. As a Mentor and Instructor, facilitated weekly professional development workshops and provided personalized coaching that increased team performance.. Managed high-pressure conflict resolution, intercultural communication, and meticulous goal tracking, ensuring organizational cohesion and the successful integration of diverse teams in high-demand environments

MATHEMATICS & PHYSICS EDUCATOR

- ***El Castaño Bilingual School (2023)***

Responsible for academic instruction for students from 6th grade through High School, designing and executing curricula focused on logical reasoning and complex problem-solving. Facilitated the learning of advanced physics and mathematical concepts through active methodologies, adapting teaching styles to various learning levels and competencies.
